Collection and processing of personal data

I hereby consent to the following personal data being collected in connection with my participation in the study "Evaluating, Identifying and Reducing determinants of MHCs in Youth" (EARLY): sociodemographic characteristics (in particular date of birth, gender, nationality), location (zip code / postal code), health, mental health, and emotions. This data is collected for research purposes.

The aforementioned data is stored in pseudonymized form on a secure server at University of Applied Sciences Emden / Leer, Germany and can only be viewed by authorized persons. The EARLY study team may contact me to remind me to participate and to inform me of any possible follow-up data collection. In addition, separate consent is required for any further data collection.

The personal data collected will be deleted 10 years after completion or discontinuation of the study.

Disclosure of data to third parties

The personal data collected will not be transferred to third parties.

If necessary, in the event of adverse events, the personal data collected may be transmitted in pseudonymized (encrypted) form to the relevant ethics committee and the European Commission.

The data will not be forwarded to countries outside the European Union.
